Edelbrock EG 350 SBC Crate Engines

Olive Branch, MS — The Edelbrock 350c.i. SBC Engine is a 100% brand-new, fully assembled performance engine built with the best quality parts from the block up. Nothing is reconditioned or rebuilt on this high-quality, entry-level hot rod engine making 400-plus horsepower with excellent street manners and great sound. If you're looking for an engine to keep pace with modern muscle, this engine has no problems keeping with the pack. Additionally, it looks great while doing it, with no need for ugly plastic covers to hide a bunch of wiring. Performance numbers are verified by Edelbrock engineers using SAE J607 standard.

EG 350/410 SBC Crate Engine: Carbureted

The carbureted SBC 350 makes 410 HP at 5,500 RPM and 430 LB-FT of torque at 4,500 RPM. It is a 10.4:1 compression-ratio engine featuring a steel crankshaft, forged rods and pistons, a full roller valve train, and E-Tec™ 170 heads with Beehive™ springs. Topped with an RPM Air-Gap™ intake and a custom-calibrated AVS2™ carburetor, it creates 17 inches of idle vacuum at 850 RPM for a smooth yet healthy performance sound.

EG 350/430 SBC Crate Engine: EFI

The EFI SBC 350 makes 430 HP at 6,000 RPM and 420 LB-FT of torque at 4,500 RPM. It features the same internals as the carb version but is topped with a Pro-Flo 4 EFI specifically calibrated to this engine creating 19 inches of idle vacuum. You can expect a quick throttle response.

Additional Specs

- 4.000" bore x 3.480" stroke
- COMP Cams hydraulic roller camshaft
- Duration @ 0.050 216 In / 217 Ex
- Lift 0.573 In / 0.558 Ex
- 109.5 lobe separation
- 1.6 ratio aluminum roller rockers
- Forged aluminum pistons 10.4:1 CR
- 5.7" Forged I-beam rods with ARP bolts
- Steel crankshaft
- 7-quart oil pan with crank scraper, windage tray, and trap door baffles
- Custom-calibrated HEI distributor
- Comes with spark plugs and wires

Quick Facts

Product: EG 350 SBC Crate Engines

Part Number: 45005 (Carb), 45015 (EFI)

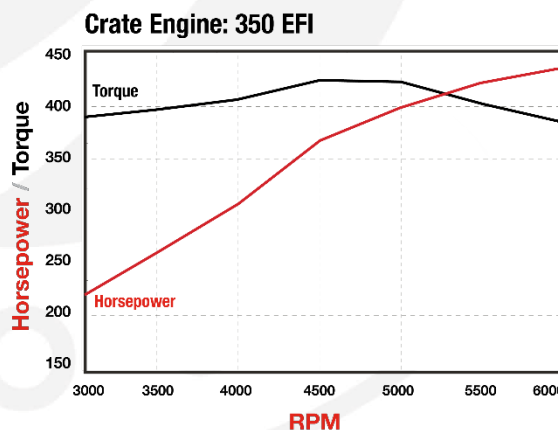

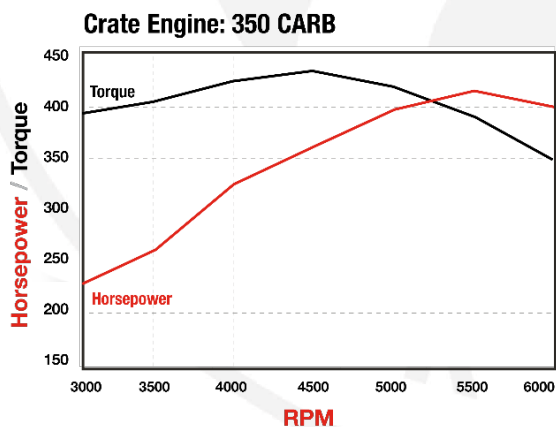

UPP Price: Carb - \$7,995.95; EFI - \$8,995.95

Social Media Pitch: The Edelbrock EG 350 SBC Engine is a 100% brand-new, fully assembled performance engine built with the best quality parts from the block up, making 400-plus horsepower with excellent street manners and great sound.

Features & Benefits:

- 410+ HP, excellent street manners
- Fully assembled using brand-new parts
- Available with AVS2 carburetor (410 HP/430 TQ) or Pro-Flo 4 EFI (430 HP/420 TQ)
